1. Introduction

1.1 Overview

- 1.1.1 This is a model policy developed by Denbighshire Education and Children's Services in accordance with the Welsh Government **Statutory Guidance: Supporting Learners with Healthcare Needs. Guidance. Welsh Government 215/2017.**
- 1.1.2 This policy must be read with the overarching statutory guidance, which must be followed.
- 1.1.3 Local authorities and governing bodies **must** have regard to this statutory guidance when carrying out their duties in promoting the welfare of children who are pupils at the education setting, including meeting their healthcare needs. The guidance also applies to activities taking place off-site as part of normal educational activities.
- 1.1.4 Throughout this document references are made to healthcare plans. There are two types:

a). School based Individual Healthcare Plan (IHP):

This plan is instigated by the school when it is identified that a pupil has a healthcare need. (see figure 1). This is a plan for the care of the individual pupil whilst in school and may include input from a health professional and a medical healthcare plan.

b). Medical Healthcare Plan:

This is a healthcare plan provided by a health professional.

1.2 Key policy statements

- 1.2.1 Pupils with healthcare needs should be properly supported so that they have full access to education, including trips and physical education.
- 1.2.2 If there are any concerns in the implementation of the policy relating to safeguarding, the school should follow their safeguarding procedures, and if need be take advice from the Education Safeguarding Officer or the Children's Gateway.
- 1.2.3 Governing bodies must ensure that arrangements are in place to support pupils with healthcare needs.
- 1.2.4 Governing bodies should ensure that education setting staff consult the relevant professionals, pupils and parents/carers to ensure the needs of the pupil with healthcare needs are properly understood and effectively supported.

- 1.2.5 Any staff member within the education setting may be asked to provide support to pupils with healthcare needs, including assisting or supervising the administration of medicines. This role is entirely voluntary. Staff members must receive sufficient and suitable training and achieve the necessary level of competence before they take on the responsibility. No staff member can be required to administer or supervise medication unless it forms part of their contract, terms and conditions or a mutually agreed job plan (see page 6-11, national guidance).

Where a medical healthcare plan, individual healthcare plan (IHP) and/or medication for a pupil is not readily available on a given day and places a pupil at risk, the headteacher will assess the risk and has the right to refuse to admit the child into the school until said healthcare plan or medication is provided in accordance with this school policy.

***However, this should not affect the pupils' attendance. The School, Local Authority and Health Board must liaise with each other as soon as possible.**

1.3 Legislation and guidance

- 1.3.1 The legislation that this policy has been issued under is documented in Supporting Learners with Healthcare Needs. Guidance. Welsh Government 215/2017; pages 3, 4, 5, 27, 28, 29, 30 and 31; which must be followed.
- 1.3.2 In addition the following guidance and policies have been referred to:
- Guidance on the use of emergency salbutamol inhalers in schools in Wales. Guidance. Welsh Government circular no: 015/2014
 - Model Safeguarding and Child Protection Policy for use within Denbighshire Schools

1.4 Formulation of this policy

- 1.4.1 Consultation was undertaken between Denbighshire County Council, school representatives (headteachers, SENCo's, governors), unions, school nurses and other partners in Betsi Cadwalader University Health Board. Views and opinions from this consultation exercise were collated, analysed and considered in formulating this policy.
- 1.4.2 This policy has been developed in conjunction with Denbighshire County Council education team, consultation with the named governor for Child Protection (Dr M Hesseling) and the school Child Protection officers.

2. Roles and responsibilities

- 2.1.1 In accordance with the Welsh Government statutory guidance the local authority and the governing body have considered the following points in developing this policy and its procedures:
- Staff should understand and work within the principles of inclusivity.

- Lessons and activities should be designed in a way which allows those with healthcare needs to participate fully.
- Staff should understand their role in supporting pupils with healthcare needs and appropriate training should be provided.
- Staff should feel confident they know what to do in a healthcare emergency.
- Staff should be aware of the needs of their pupils through the appropriate and lawful sharing of the individual pupil's healthcare needs.
- Whenever appropriate, pupils should be encouraged and supported to take responsibility for the management of their own healthcare needs.

2.1.2 Pages 6 – 11 of the statutory guidance refer to the minimum standards of *expected practice* for the following. These must be followed in accordance with the Welsh Government statutory guidance.

- Local authorities;
- Governing bodies;
- Headteachers;
- Teachers and support staff;
- Pupils and parents/carers;
- NHS Wales school health nursing services, third sector organisations and other specialist services.

2.1.3 Based on these principles, the persons with the overall responsibility for managing healthcare needs is:

| | |
|--|---|
| Lead member of staff for managing healthcare needs | Rona Jones -Headtacher |
| Protocol in the absence of this person | Lynne Price _ CP officer June Morris - ALNCo |

2.1.4 All staff and governors will be aware of the unacceptable practice guidance as outlined in the National Guidance (highlighted in **appendix 8**), and must avoid these practices.

3. Insurance

3.1 This school, by adopting this county model policy/national guidance is therefore covered by the local authority's insurance arrangements in respect of managing pupils' healthcare needs.

4. Steps to take when a pupil presents with a healthcare need – Individual Healthcare Plans (IHP)

4.1 Individual Healthcare Plans

4.1.1 Where healthcare needs are complex, fluctuating, long term or where there is a high risk that an emergency intervention will be needed, an individual healthcare plan will be required (IHP). An IHP may be needed even if a medical condition is normally well controlled.

4.1.2 However, not all pupils with healthcare needs require an IHP and we have a process in place (see figure 1) to decide what interventions are most appropriate.

4.1.3 In most cases, especially concerning short-term illnesses such as those requiring a course of antibiotics, a detailed IHP may not be necessary. In such circumstances it may be sufficient to only complete the form in [appendix 2](#).

4.2 Development of the IHP

4.2.1 An IHP sets out what support is required by a pupil. It does not need to be long or complicated. When a pupil has continual or episodic healthcare needs, an IHP may be required.

4.2.2 If the pupils healthcare needs are complex and they are changing settings, then we will start preparation early to help ensure an IHP is in place at the start of the new term.

4.2.3 If any medication is required as part of an IHP, the medication consent form in [appendix 2](#) must also be completed.

4.2.4 Figure 1 outlines the process for identifying whether an IHP is needed.

4.2.5 In some cases e.g. short term anti-biotics; at the end of stage 2 'gather information' stage it might be clear that an IHP is not needed. In this case it will not be necessary to progress to stage 3 and 4.

Stage 1: Identify pupils with healthcare needs:

- Pupil is identified from enrolment form or other route (or annual pupil data collection form)*.
- Parent/carer or pupil informs school of a healthcare need or change in healthcare need.
- Healthcare professional.
- Transition discussions are held in good time, e.g. 8 weeks before either the end of term or moving to a new educational setting.

Stage 2: Gather information:

- If there is a potential need for an IHP; the school should discuss this with the parent/carer and the pupil themselves. This must be done where appropriate in conjunction with the relevant healthcare professional. This will support the decision making process about whether an IHP is needed.

Stage 3: Establish if an IHP should be made:

- The headteacher or delegated person should organise a meeting with appropriate staff, parents/carers, the pupil, and appropriate clinicians to determine if the healthcare needs of the pupil require an IHP, or whether this would be inappropriate or disproportionate. If there is a contentious issue with a parent/carer, then the headteacher will take the decision on how to take this forward; which can be challenged through the complaints procedure.

Stage 4: If an IHP is needed:

- The headteacher or delegated person, under the guidance of the appropriate healthcare professionals, parents/carers and the pupil should develop the IHP in partnership. This includes instigating, coordinating, facilitating meetings, documentation and overall communication in the school.
- The headteacher or delegated person to facilitate necessary risk assessments and interventions are done to ensure the child's safety.
- The headteacher or the delegated person will identify appropriate staff to support the pupil including identifying any training needs and the source of training.
- The headteacher or the delegated person will make arrangements for training by relevant and appropriately qualified specialists.
- The headteacher or delegated person will circulate the IHP and any subsequent updates to: parent/carer, headteacher, class teacher/SENCo (as appropriate), and the relevant healthcare professional. NB consent from parent/carer and pupil must be obtained to do this.
- The headteacher or delegated person will set appropriate review date and define any other triggers for review, section 5.

Adapted from: [Supporting Learners with Healthcare Needs. Guidance. Welsh Government 215/2017](#);

Figure 1 – the process for identifying whether an IHP is needed.***How we collect information about our pupils' healthcare needs***

Our school admission form includes questions about a pupil's health needs. It also includes a declaration that the parent/carer will inform the school of any changes to their child's existing or new healthcare needs.

Our annual data collection form about pupils includes questions about healthcare needs, as well as a declaration that the parent/carer will inform school if there are any changes during the school year.

Following the annual pupil data collection we will make checks to ensure IHPs are in place or existing ones reviewed and/or medication consents are in place.

4.3 Responsibilities for IHPs

4.3.1 In our school, the **headteacher** has the overall responsibility for the *development* of the IHP (for the purposes of this policy the term *development* means 'instigating, coordinating and facilitating in conjunction with the relevant health specialists').

4.4 Development and content

4.4.1 The development of a detailed IHP for a pupil might involve the following:

- the pupil
- the parents/carers
- input or information from previous education setting
- appropriate healthcare professionals
- social care professionals
- the headteacher and/or delegated responsible person for healthcare needs across the setting
- teachers and support staff, including catering staff
- any individuals with relevant roles such as a first aid coordinator, a well-being officer, and SENCo.

4.4.2 Those devising the IHP will agree who will take the lead, but the responsibility for ensuring it is finalised and implemented rests with the education setting.

- 4.4.3 The IHP will be developed with the best interests of the pupil in mind and we and the specialist services (if required), will assess the risks to the pupil's education, health and social well-being.
- 4.4.4 The aim of the IHP is to capture the steps which need to be taken to help a pupil manage their condition and overcome any potential barriers to participating fully in education.
- 4.4.5 A template IHP can be found in [appendix 3](#).
- 4.4.6 If the relevant health professional has provided an IHP and this covers all aspects contained in the example IHP in [appendix 3](#), then a separate IHP is not required. The IHP can refer to other documents and do not need to be repeated.
- 4.4.7 However, if it is determined that an IHP is required and one has not yet been developed, we will complete the IHP in [appendix 3](#) together with the pupil, parent/carer and relevant health professional. It may not be necessary to complete all sections of this template. Many third sector organisations have produced condition-specific template IHPs that could be used e.g. Asthma UK.
- 4.4.8 Where a pupil has an special educational need (SEN) the IHP will be linked or attached to any Statement of SEN/ individual education plan, or learning and skills plan (post 16). A personal evacuation plan and risk assessment may also be attached.

4.5 Coordinating information with healthcare professionals, the pupil and parents/carers

- 4.5.1 The way in which we share a pupil's healthcare needs with social and healthcare professionals depends on their requirements and the type of education setting. The IHP will explain how information is shared and who will do this. This individual can be a first point of contact for parents/carers and staff and will liaise with external agencies.

4.6 The pupil's role in managing their own healthcare needs

- 4.6.1 Pupils who are competent* to do so will be encouraged to take responsibility for managing their own healthcare needs, which includes medicines and procedures. This should be reflected within the pupil's IHP.

**Gillick – where possible, the learner should be supported to build understanding and confidence to increasingly self-manage healthcare needs, depending on their ability to do so. This is sometimes referred to as 'Gillick competence'.*

- 4.6.2 Where possible, pupils will be allowed to carry their own medication and relevant devices, or be able to quickly access their medication. Some pupils may require an appropriate level of supervision.
- 4.6.3 If a pupil refuses to follow their IHP or take their medicine or carry out a necessary procedure, staff should not force them to do so, but follow the setting's defined arrangements, agreed in the IHP. Parents/carers will be informed as soon as possible so that an alternative arrangement can be considered and health advice will be sought where appropriate.

4.7 Access to the IHP

- 4.7.1 The IHP should be easily accessible to all who need to refer to it, while maintaining the required levels of privacy.
- 4.7.2 IHPs are stored centrally on the school Information management system (SIMS) and hard copies are stored centrally in the school admin office. Copies are kept with the child when appropriate.

5. Review of a pupil's healthcare needs

5.1 IHP

- 5.1.1 The governing body will ensure that all IHPs are reviewed at least annually or more frequently should the IHP state otherwise or should there be new evidence that the needs of the pupil have changed.
- 5.1.2 In this review we will involve all key stakeholders where appropriate including – the pupil, parent/carer, education and health professionals and other relevant bodies. Example table provided in [appendix 6](#).

5.2 No IHP

- 5.2.1 For pupils with a healthcare need without an IHP we will undertake a review every every term.

6. Sharing and recording information

- 6.1.1 The governing body has ensured that we have clear communication arrangements in place in relation to the healthcare needs of pupils. This must done in line with the Data Protection Act 1998 and the WASPI Information Sharing Policy.
- 6.1.2 Our managing healthcare needs policy and the information sharing policy is made available to parents/carers via the school website.
- 6.1.3 To protect pupil confidentiality, we will agree with the pupil and parent/carer how we can share information about their healthcare needs. Parents/carers will be asked to sign a consent form which clearly details the bodies, individuals and methods through which the pupil's medical information will be shared ([appendix 2 and 3](#)). Because sharing medical

information can be a sensitive issue, will we involve the pupil in any decisions as appropriate.

- 6.1.4 We will share any information to ensure that teachers, supply teachers, any support staff and temporary staff are aware of the healthcare needs of pupils, including IHPs, particularly if there is a possibility of an emergency situation arising. This will include any changes to healthcare needs, IHPs and medication. The sharing and storing of information must comply with the Data Protection Act 1998 and not breach the privacy rights of or duty of confidence owed to the individuals. This will be done by:

Pupils' healthcare needs are shared with staff verbally via information sessions such as during INSET days or staff meetings. They are also made aware of where the written information (IHP) is stored centrally on the school's information management system (SIMS). For high risk pupils, we use a noticeboard in the staff room to display information on pupils high-risk health needs, first aiders and certificates, emergency procedures, etc.

- 6.1.5 We will ensure that our pupils (or their friends) know who to tell if they feel ill, need support or changes to support them.
- 6.1.6 We will listen to concerns of pupils' (or their friends) if they feel ill at **any** point and consider the need for medical assistance (especially in the case of reported breathing difficulties).
- 6.1.7 If a pupil has said they feel ill, all appropriate staff should be made aware; e.g. a pupil had an asthma attack in morning, all other staff the pupil would see later that day need to be aware to look out for any signs of deterioration/further illness. This could include non-teaching staff such as lunchtime staff or reception staff, where appropriate.
- 6.1.8 When pupils are placed with other services for all/some of the time (e.g. pupil referral unit, sixth form education or resource provision) we will ensure that the appropriate healthcare needs information is shared in line with our information sharing policy and with the consent of the parent/carer and pupil.
- 6.1.9 We will keep a list of what information has been shared with whom and why, for the pupil or parent/carer to view on request. This can be accessed by looking at the pupil's IHP created by the school and/or the medication consent form ([appendix 2 and 3](#)).

7. Record keeping

- 7.1.1 We maintain records of pupils healthcare needs on the school information management system (SIMS), they have been computerised to allow quick and easy access by the appropriate staff. Data systems can also allow for easy access to the required information for staff that may be placed into classrooms where they are not familiar with the healthcare needs of the

pupils. The operation of such systems complies with the Data Protection Act 1998).

7.1.2 New paperwork will be completed whenever there are changes to an IHP, medication or dosage. We will ensure that the old forms are clearly marked as being no longer relevant and stored in line with our information retention policy.

7.1.3 The administration of all medication will be formally recorded using **appendix 5**. This includes: emergency medication, non-prescribed medication and controlled drugs.

8. Communication with parents/carers

8.1.1 We communicate with parents /carers about their child's medication on a daily basis when appropriate. We will telephone parents /carers on a daily basis for verbal consent for non prescription medication before any medication is given. For prescribed medication, the written consent of parents will be obtained in advance of the medicine being brought to school, in addition to this written communication will take place by exception e.g.

- a. To state that a child has not had their routine medication administered and why (e.g. refused); this will be done on the same day that it happens
- b. To state that a child has had emergency medication administered, and the reason why; this will be done on the same day that it happens

9. Creating an accessible learning environment

9.1 Accessibility

9.1.1 The local authority and the governing body will ensure our school is inclusive and accessible in the fullest sense to pupils with healthcare needs. This includes the following (please refer to pages 11 – 13); this must be followed:

- Physical access to education setting buildings (this is the primary responsibility of the local authority);
- Reasonable adjustments – auxiliary/equipment/services (this is the primary responsibility of the governing body and school);
- The governing body/schools with the support of the local authority will ensure that such equipment is regularly serviced;
- Day trips and residential visit (this is the primary responsibility of the governing body and school);
- Social interactions (this is the primary responsibility of the governing body and school);
- Exercise and physical activity (this is the primary responsibility of the school);
- Food management (this is the primary responsibility of the school);
- Risk assessments (this is the primary responsibility of the school).

9.2 Qualifications, examinations and national curriculum assessments (p18 WG guidance)- this must be followed in accordance with the Welsh Government statutory guidance.

- 9.2.1 This is detailed on page 18 of the WG guidance, however we have a separate document (Examinations policy 2017) describing the arrangements in this eventuality.
- 9.2.2 It is unacceptable practice to request adjustments or additional time at a late stage. They will have to be applied for in good time. Consideration must also be given to mock examinations or other tests.

9.3 Education other than that at school (EOTAS) (p19 - 20 WG guidance) – this must be followed in accordance with the Welsh Government statutory guidance.

- 9.3.1 This section describes the support available to pupils of compulsory school age who due to their healthcare needs, may not for any period attend a mainstream education setting.
- 9.3.2 In the case of a short absence from school (less than 15 days), we will provide work to be completed at home, if the pupils condition permits, and will support the pupil to catch up on their return.
- 9.3.3 In the eventuality that a pupil is absent for more than 15 days (consecutive or cumulative) we will work with the local authority to ensure the needs of the pupil are met.

9.4 Integration (p20 - 21 WG guidance) – this must be followed in accordance with the Welsh Government statutory guidance.

- 9.4.1 We have a key role to play in the successful integration after diagnosis or reintegration of pupils with healthcare needs. We will be proactive and work with health professionals and the local authority as appropriate, as well as other pupils in supporting the transition. We will train staff in a timely manner to assist the pupils return. The support will be considered by key parties including the pupil and parent/carer, and will be reflected in the pupil's IHP.
- 9.4.2 When a pupil is discharged from hospital appropriate information should be provided to parent/carers which should be shared with us. We will work with the parent/carer and the hospital to manage the pupils return.
- 9.4.3 We will work with the local authority to follow up with the pupil after reintegration.

9.5 School transport

- 9.5.1 For school transport relating to pupils with healthcare needs we will follow the local authority school transport policy.

10. Emergency procedures

- 10.1.1 We have a procedure in place for dealing with emergency situations. All staff know who is responsible for this policy, who our first aiders are and how to deal with common healthcare needs.
- 10.1.2 In situations requiring emergency assistance we will call 999.
- 10.1.3 The location of pupils' healthcare records and emergency contact details will be known to staff.
- 10.1.4 Other pupils in our school will be told what to do in an emergency, i.e. inform a member of staff immediately.
- 10.1.5 If a pupil needs to be taken to hospital, a staff member will stay with them until a parent/carer arrives. This includes accompanying them in the ambulance to the hospital. The member of staff will take the appropriate paperwork with them.

11. Staff allocation and training

- 11.1.1 The governing body will ensure that staff that volunteer or that are contracted to manage healthcare needs of pupils have access to the appropriate training and guidance.
- 11.1.2 This training will be sufficient to ensure that staff are competent, have confidence in their ability to support pupils and fulfil IHP requirements. We will identify how many staff members are required to fulfil IHP requirements, these will usually be trained first aiders who will receive additional training if required.
- 11.1.3 The training will be rigorous to ensure that sufficient staff are competent to support a pupil's healthcare needs e.g. should the usual member of staff be absent.
- 11.1.4 Training may involve an input from the pupil and their parent/carers, but they will never be used as the sole provider of training.
- 11.1.5 If a pupil has a complex healthcare need, we will seek input and advice from the school nurse / specialist nurse / other healthcare professionals and the local authority in relation to training and support for staff. NOTE: schools are encouraged to organise specialist nurse training by cluster where possible.
- 11.1.6 All staff will be made aware of our Managing Healthcare Needs Policy, common conditions (to ensure recognition of symptoms and understand

where to seek appropriate assistance) and staff roles in carrying out healthcare arrangements. This will be communicated to staff during whole school INSET or specifically scheduled training.

- 11.1.7 New and temporary staff will be made aware of the preventative and emergency measures that are in place so that they can recognise the need for intervention and act quickly. This will be done during induction to the school.
- 11.1.8 The movement of trained staff will always be in conjuncture with the pupils they support.
- 11.1.9 If the trained staff usually responsible for administering medication aren't available an alternative member of staff will carry out the relevant administration with parental permission. Alternatively, parents/carers will be asked to come to administer the medication.
- 11.1.10 Staff will be asked to sign this policy to say that they have read, understood and will comply with it.
- 11.1.11 Training records will be maintained, [appendix 4](#).

12. Day trips and residential visits and work placements

- 12.1.1 In line with statutory duties, the governing body actively supports all pupils with healthcare needs to participate in trips and visits.
- 12.1.2 We will contact parents/carers in advance by meeting/letter as appropriate which will advise them about planning their child's healthcare needs / medication for the trip/visit.
- 12.1.3 All staff supporting a trip/residential visit will be made aware of pupil's healthcare needs, with consideration for the Data Protection Act 1998 and respecting a pupils' right to privacy. Medical information will be added to the EVOLVE system for planning school trips. They will receive the required information to ensure staff are able to provide an equal experience for the pupil. This information may include health and safety issues, what to do in an emergency and any other additional support, including medication and required equipment.
- 12.1.4 During a trip/visit, any medication which may be needed by a pupil will be carried by the member of staff with the relevant training or the pupil that can self-administer.
- 12.1.5 Pupils who may require their medication will be in a group which includes the trained member of staff carrying the medication where possible.
- 12.1.6 If a child turns up to go on a trip without their medication or not enough medication in line with this policy then we will contact parents/carers to ask them to bring the medication to school. If this is not possible, we will have to consider whether it is safe for the child to attend the trip/visit e.g. is the

medication for emergencies, life controlling. The headteacher will decide if it is safe for the pupil to attend.

12.1.7 When a pupil participates in a work experience placement or similar, appropriate healthcare support will be agreed and put in place.

13. Medication

Note: where medication is prescribed to be taken in frequencies which allow the daily course of medicine to be administered at home, parents/carers should seek to do so e.g. before and after school and in the evening. There will be instances where this is not appropriate.

Note: pupils under 16 should never be given aspirin or its derivatives unless prescribed to them.

13.1 Supply of medication/devices

13.1.1 We will not keep surplus volumes of medication in school, as stated in the consent form. The exception being where it is in the best interests of the child.

13.1.2 We will never accept any medicines that have been taken out of the original container. Medication should be in the original container, labelled with the name of the pupil, medication name, dosage and frequency, and expiry date. Staff will never transfer medication from its original container, unless the container breaks, the parent/carer will be informed and appropriate action will be taken.

13.1.3 We only accept medication in the following condition as per national guidance:

Medication must:

- a. be in date.
- b. have contents correctly and clearly labelled
- c. be labelled with pupils' name.
- d. be accompanied with written instructions for administration, dosage, frequency and storage.
- e. be in its original container/packaging as dispensed by the pharmacist (with the exception of insulin which is generally available via an insulin pen or pump. Asthma inhalers and spacers must have the label attached to the inhaler).

13.2 Accepting/returning medication (including transporting it to school)

13.2.1 It is the parent/carers responsibility to get their child's medication to school.

13.2.2 We will discuss with parents/carers how the medication will be transported to school and this will be reflected in the consent form (appendix 2).

13.2.3 Medication will only be returned to parent/carer personally.

13.2.4 Secondary schools: Older children may be able to carry/administer their own medication, however parents/carers consent must be obtained first.

13.3 Storage

13.3.1 The headteacher has the ultimate responsibility for ensuring that medicines are stored safely in the school.

13.3.2 The headteacher will ensure that health risks arising from medicines are controlled in line with the Care of Substances Hazardous to Health Regulations 2002 (COSHH).

13.3.3 The headteacher will ensure secure and appropriate storage of medication.

Table 1 – storage of medication (including controlled drugs)

Note: we will never store medication under any circumstances in a first aid box.

| Medication type | Location |
|--------------------------|--|
| Non-emergency medication | <ul style="list-style-type: none"> All non-emergency medication will be kept in a secure place with appropriate temperature or light controls. If it is a controlled drug, additional security measures and controls are advisable. |
| | Location(s) = Admin office – in lockable cupboards |
| Refrigerated | <ul style="list-style-type: none"> Some medicines need to be refrigerated. The refrigerator temperature will need to be regularly monitored to ensure it is in line with storage requirements. Medicines can be kept in a refrigerator containing food, but should be in an airtight container and clearly labelled. A lockable medical refrigerator should be considered if there is a need to store large quantities of medicine. |
| | Location(s) = Boarders' kitchen fridge |
| Emergency medication | <ul style="list-style-type: none"> Emergency medication must be readily available to pupils who require it at all times during the day or at off-site activities. All staff will be made aware of the location of emergency medication. Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenaline auto-injectors (pens) should be readily available to pupils and not locked away. This is particularly important to consider when outside of the education setting's premises, e.g. on trips. If the emergency medication is a controlled drug it should be kept as securely as possible so as to minimise the risk of unauthorised access while also allowing quick access if this might be necessary in an emergency. For example, keys should not be held personally by a member of staff. A pupil who has been prescribed a controlled drug may legally have it in their possession, if they are competent to do so, and they must not pass it to another pupil or other unauthorised person. Monitoring may be necessary. Where staff administer emergency medication to a pupil, this will be recorded. |
| | Location(s) = Admin office, in pupil's care |

Asthma inhalers will be stored in a clean dust free container.

13.4 Access

13.4.1 It is important for pupils to be told and know where their medication is stored and how to access it.

13.4.2 We will inform all staff where pupils' medication is stored and how they can access it in accordance with the Data Protection Act 1998 (point 6 and 7).

13.5 Disposal

13.5.1 When no longer required, we will return medication to the parent/carers to arrange for their safe disposal, e.g. at the end of every term/annually or when the medicines are out of date.

13.5.2 In the event that the parents/carers are unavailable, then we will seek advice from our school nurse on the disposal of unused medication left in school. If they are unavailable, the medication will be handed into a local pharmacy.

13.5.3 We will always use sharps boxes for the disposal of needles and other sharps and disposed of appropriately.

13.6 Administration

13.6.1 Where a pupil is under 16, assistance or administration of prescribed or non-prescribed medicines requires written parent/carer consent, unless Gillick competence is recorded. Parental consent will be obtained by telephone for the non routine administration of all non prescribed medication.

13.6.2 Parents/carers must make a formal request with their written consent for the school for staff to administer ANY medication to their child, including when it forms part of an IHP ([appendix 2](#)).

13.6.3 One consent form must be completed for each medication.

13.6.4 It is necessary for the headteacher to formally agree to the request to administer medication and the completed and signed paperwork must in place before it can be administered ([appendix 2](#)). In the headteacher's absence the Child Protection officer or the ALNCO will take on this responsibility. In the interim, parents/carers will be permitted to administer the medication themselves.

13.6.5 In line with WG guidance only the suitably trained staff will administer medication in accordance with the pupils current IHP and/or the completed administration of medication consent form.

13.6.6 If the trained or approved members of staff who are usually responsible for administering medication to a pupil are not available, the pupil's IHP will set out how alternative arrangements to provide support will take place.

| | |
|--|--------------------------|
| Lead person to approve medication administration requests: | Rona Jones - Headteacher |
|--|--------------------------|

| | |
|--|---|
| In headteacher/delegated persons absence named person to approve medication administration requests: | Lynne Price – Child Protection officer June Morris – ALNCO |
|--|---|

13.6.7 In line with good practice we will endeavour to have two members of staff present when administering medication, and two signatures will be recorded. NOTE this is not a legal requirement.

13.6.8 When medication administration procedures require an adult of the same gender as the pupil and a second signature we will endeavour to address this, and it will be noted in the IHP and/or medication consent form.

13.6.9 If the treatment is invasive or intimate we will follow the DCC intimate care policy unless alternative arrangements are agreed, and this will be recorded in or attached to the pupils IHP.

13.6.10 When administering the medication to a pupil, the staff will re-check the following each time:

- a. Check consent form first.
- b. Medication must be in its original container/packet* with the label attached;
- c. If prescribed, it must have been dispensed by a pharmacist;
- d. Must have the expiry date and be in date;
- e. Must have the name of the child;
- f. Must have the name of the drug;
- g. Must have the dosage size and frequency;
- h. The medication has been stored according to the storage instructions;
- i. How much medication is left
- j. Check the maximum dosage
- k. Check the amount and time of any prior dosage administered.

If there is a problem, contact headteacher/delegated person and then parent/carer.

**Some medicines, such as insulin, may not be within the original packaging but in a pen or a pump.*

13.6.11 The member of staff administering medication will monitor that the drug has been taken.

13.6.12 The administration of all medication will be recorded using the form in [appendix 5](#).

13.7 Self-medication

13.7.1 Unless there is an agreed plan for the pupil to self-medicate (16 years and above or Gillick competent), all medication will be administered by a member of staff. The formal request for a pupil to self-medicate (included in [appendix 2](#)) from the parents / carers must be made before such practice is allowed. In other cases, it will be supervised in accordance with the IHP.

- 13.7.2 In line with good practice, pupils (secondary) will be asked to only carry enough medication for that day.
- 13.7.3 Without exception, pupils must not share their medication for any reason with another pupil. This will be made clear to all pupils. This will be treated as misuse in line with our substance misuse policy.

13.8 Change of dose / medication

- 13.8.1 We will never make changes to medication or dosages on parent/carer instruction alone.
- 13.8.2 If a change in dose is requested by a pupil, parent/carer or a health professional; the change must be confirmed in writing by the prescribing officer and a new medication consent form must be completed by the parent/carer before we will administer a change in dose to a pupil.
- 13.8.3 If the relevant paperwork is not provided on a given day and places a pupil at risk, the headteacher/delegated person will risk assess and has the right to refuse to admit the pupil into the school until the said paperwork is provided in accordance with this policy.

13.9 Adverse effects

- 13.9.1 If a pupil experiences adverse effects following the administration of medication we will administer first aid or contact the emergency services as required and will contact the parents/carers immediately. The adverse effect will be recorded on the medication recording sheet in [appendix 5](#).

13.10 Medication errors

- 13.10.1 If we forget to administer medication, administer medication late, provide an incorrect dose of medication, provide an additional dose, administer medication without consent, administer medication by an untrained member of staff or administer medication to the incorrect child, then we will report to the headteacher/delegated person and seek advice from a healthcare professional or treat the pupil in line with our medical emergency procedures if required. We will contact parents/carers immediately and will complete the incident form, [appendix 7](#).

13.11 Medication refusal or misuse

- 13.11.1 If a pupil refuses to take their medication, then they will not be forced to take it, unless in an emergency situation.
- 13.11.2 If a pupil refuses medication in an emergency situation (for example: adrenaline injection in the case of anaphylaxis), then professional medical help will be requested and the parents / carers informed immediately.
- 13.11.3 Without exception, pupils must not share their medication for any reason with another pupil. This will be made clear to all pupils. This will be treated as misuse in line with our substance misuse policy.

13.11.4 If a pupil refuses or misuses any medication, their parent/carer will be informed as soon as possible and we will also ask parents/carers to seek health care advice as appropriate. If parents/carers cannot be contacted immediately, staff may need to seek immediate health care advice or contact the emergency services if needed.

13.11.5 When informing parents/carers it is considered best practice to also have this in writing. We will also record the refusal / misuse in [appendix 5](#).

13.12 Covert medication

13.12.1 Covert administration of medication will be done under strict guidelines and supervised with an appropriate timeline outlined. A consent form ([appendix 9](#)) must be completed, with consent from a health professional which clearly outlines the reasons and why it is in the best interest of the pupil.

13.13 Medication that has run out or expired

13.13.1 If a pupil's medication runs out or expires, it is the responsibility of the parent/carer to monitor and to replenish it. This is clearly stated in the medication consent form ([appendix 2](#)); and parents/carers will be informed of this in on our website and in the Homes / School Agreement.

13.13.2 However, our safeguarding responsibilities and duties under the Social Services and Well-Being Act mean that it is good practice for us to regularly check the expiry dates of any medication stored in school. Medication dates and quantities will be checked every half term and the appropriate action taken.

13.15 Asthma

13.15.1 Guidance on the use of emergency salbutamol inhalers in schools in Wales. Guidance. Welsh Government circular no: 015/2014 states that schools are now permitted to have buy, hold and use 'emergency' inhalers in school for use with pupils diagnosed with asthma.. We do not have an emergency inhaler in school.

13.16 Controlled drugs

13.16.1 Drugs such as Ritalin are controlled by the misuse of drugs act. Therefore it is imperative that they are managed between the school and the parents/carers, including transportation to school.

13.16.2 Ideally controlled drugs will only be brought in to school on a daily basis by parents/carers, but certainly no more than a week's supply as indicated in the consent form ([appendix 2](#)), with the exception where it is in the best interests of the child. We will always record the amount of medication handed over to us or back to the parent/carer ([appendix 5](#)).

13.17 Non-prescribed medication (e.g. over the counter, homeopathic)

- 13.17.1 Some schools may choose to hold some non-prescribed medication (e.g. paracetamol).
- 13.17.2 By exception there might be occasions when this medication is required unexpectedly during the school day. In this eventuality as long as written consent is received this can be given e.g. consent via email and [appendix 2](#) must be completed and returned to school as soon as possible.
- 13.17.3 The process for non-prescribed medication is the same as all other medication; but will be dealt with on an individual case by case.
- 13.17.4 Pupils are not permitted to carry non-prescribed medication in school unless prior consent has been obtained ([appendix 2](#)).

14. Complaints procedure

- 14.1 If a pupil or parent/carer is not satisfied with our health care arrangements they are entitled to make a complaint. Our complaints procedure is outlined on the school website.
- 14.2 Our complaints procedure follows the WG guidance: e.g. complaints should be referred to a teacher initially, then can be escalated from teacher to headteacher, then to the governing body, and then to the Local Authority.
- 14.3 If the complaint is Equality Act 2010/disability related, then consideration of a challenge to the Special Education Needs Tribunal for Wales (SENTW) can be made.

15. Reviewing the policy

- 15.1 We will review the policy every year or sooner should the need arise.

APPENDIX 1

St Brigid's school Contacting Emergency Services

Request for an Ambulance

Dial **999**, ask for an ambulance, and be ready with the following information where possible.

1. State your telephone number [01745 815228].
2. Give your location as follows [Plas yn Green, Denbigh].
3. State that the postcode is [LL16 4BH].
4. Give the exact location in the education setting [on the Mold / Denbigh road
5. Give your name.
6. Give the name of the pupil and a brief description of symptoms.
7. Inform Ambulance Control of the best entrance and state that the crew will be met and taken to reception.
8. Don't hang up until the information has been repeated back.

Speak clearly and slowly and be ready to repeat information if asked to.

Put a completed copy of this form by all the telephones in the education setting.

APPENDIX 2 (add photo of pupil)

St Brigid's school

PARENT/CARER CONSENT FOR SCHOOL TO ADMINISTER MEDICATION TO A PUPIL

- Our school will not give your child medication unless you complete and sign this form.
- If more than one medication is to be given, a separate form should be completed for each one.
- A new form must be completed when dosage changes are made.
- Where medication is prescribed to be taken in frequencies which allow the daily course of medicine to be administered at home, parents should seek to do so, e.g. before and after school and in the evening. However we understand there will be instances where this is not appropriate.
- Parents/carers will be informed as stated in the school policy when a child refuses their medication or when emergency medication is administered.
- Parent/carers can request sight of records.
- Without exception pupils must not share their medication for any reason with another pupil.

- Individual Healthcare Plan not required

Appendix 3 (add photo of pupil)

St Brigid's school

Model Individual Healthcare Plan (IHP)

(Adapted from www.medicalconditionsatschool.org.uk)

Please note: this is a very comprehensive IHP. Not all sections will be applicable. The school only needs to use the sections that are relevant and helpful to the care of the pupil.

If health professionals have already provided their own health care plan, the school might not need to create an IHP as long as the one from the health professional covers all the information that the school needs.

Links to IHP templates for specific medical conditions: <http://medicalconditionsatschool.org.uk/>

Section 4 of the policy will be followed when developing this IHP.

1. PUPIL INFORMATION

1.1 Pupil details

| | |
|--|--|
| Pupil's name: | |
| Date of birth: | |
| Year group: | |
| Nursery/School/College: | |
| Address: | |
| Town: | |
| Postcode: | |
| Medical condition(s): <i>Give a brief description of the medical condition(s) including description of signs, symptoms, triggers, behaviours.</i> | |
| Allergies: | |
| Date: | |
| Document to be updated/reviewed: | |
| Review triggers: | |

1.2 Family contact information

| | | | |
|----------------------|--|--|--|
| Name: | | | |
| Relationship: | | | |
| Home phone number: | | | |
| Mobile phone number: | | | |
| Work phone number: | | | |

| | | | |
|--------|--|--|--|
| Email: | | | |
|--------|--|--|--|

1.3 Essential information concerning this pupils' health needs

| | Name | Contact details |
|--|------|-----------------|
| Specialist nurse (if applicable): | | |
| Key worker: | | |
| Consultant paediatrician (if applicable): | | |
| GP: | | |
| Headteacher: | | |
| Link person in education: | | |
| Class teacher: | | |
| Health visitor/ school nurse: | | |
| SENCo: | | |
| Other relevant teaching staff: | | |
| Other relevant non-teaching staff: | | |
| Person with overall responsibility for implementing plan: | | |
| Person responsible for administering/supervising medication: | | |
| Arrangements for cover in these two peoples absence: | | |
| Any provider of alternate provision: | | |

| | |
|--|---|
| This pupil has the following medical condition(s) requiring the following treatment. | |
| Medication administration | <p>Please complete parent/carer agreement for school to administer medication form (appendix 2) and attach to this IHP.</p> <p>Form 1 =</p> <p>Form 2 =</p> |

1.4 Sharing information and record keeping

| | |
|--|--------------------------|
| <p>In the best interests of the pupil the school might need to share information with school staff and other professionals about your child's healthcare needs e.g. nursing staff.</p> <p>Do you consent to this information being shared?</p> | Yes / No (please circle) |
| What records will be kept about the pupil's healthcare needs, and how it will be communicated with others? | |

2. ROUTINE MONITORING (IF APPLICABLE)

Some medical conditions will require monitoring to help manage the pupil's condition.

| | |
|--|--|
| What monitoring is required? | |
| When does it need to be done? | |
| Does it need any equipment? | |
| How is it done? | |
| Is there a target? If so what is the target? | |

3. EMERGENCY SITUATIONS

An emergency situation occurs whenever a pupil needs urgent treatment to deal with their condition.

| | |
|---|--|
| What is considered an emergency situation? | |
| What are the symptoms? | |
| What are the triggers? | |
| What action must be taken? | |
| Are there any follow up actions (e.g. tests or rest) that are required? | |

4. IMPACT OF MEDICAL CONDITION AND MEDICATION ON PUPIL'S LEARNING

(Impact statement to be jointly produced by health professional and a teacher)

| | |
|---|--|
| How does the pupil's medical condition or treatment affect learning? <i>i.e. memory, processing speed, coordination etc.</i> | |
| Actions to mitigate these effects | |
| Does the pupil require any further assessment of their learning? | |

5. IMPACT ON PUPIL'S LEARNING and CARE AT MEAL TIMES

| | Time | Note |
|-----------------------------------|------|------|
| Arrive at school | | |
| Morning break | | |
| Lunch | | |
| Afternoon break | | |
| School finish | | |
| After school club (if applicable) | | |

| | | |
|-------|--|--|
| Other | | |
|-------|--|--|

- Please refer to home-school communication diary
- Please refer to school planner

6. CARE AT MEAL TIMES

| | |
|---|--|
| What care is needed? | |
| When should this care be provided? | |
| How's it given? | |
| If it's medication, how much is needed? | |
| Any other special care required? | |

7. PHYSICAL ACTIVITY

| | |
|---|--|
| Are there any physical restrictions caused by the medical condition(s)? | |
| Is any extra care needed for physical activity? | |
| Actions before exercise | |
| Actions during exercise | |
| Actions after exercise | |

8. TRIPS AND ACTIVITIES AWAY FROM SCHOOL

| | |
|---|--|
| What care needs to take place? | |
| When does it need to take place? | |
| If needed, is there somewhere for care to take place? | |
| Who will look after medication and equipment? | |
| Who outside of the school needs to be informed? | |
| Who will take overall responsibility for the pupil on the trip? | |

9. SCHOOL ENVIRONMENT

| | |
|---|--|
| Can the school environment affect the pupil's medical condition? | |
| How does the school environment affect the pupil's medical condition? | |
| What changes can the school make to deal with these issues? | |
| Location of school medical room | |

10. EDUCATIONAL, SOCIAL & EMOTIONAL NEEDS

Pupils with medical conditions may have to attend clinic appointments to review their condition. These appointments may require a full day's absence and should not count towards a pupil's attendance record.

| | |
|---|--|
| Is the pupil likely to need time off because of their condition? | |
| What is the process for catching up on missed work caused by absences? | |
| Does this pupil require extra time for keeping up with work? | |
| Does this pupil require any additional support in lessons? If so what? | |
| Is there a situation where the pupil will need to leave the classroom? | |
| Does this pupil require rest periods? | |
| Does this pupil require any emotional support? | |
| Does this pupil have a 'buddy' e.g. help carrying bags to and from lessons? | |

11. STAFF TRAINING

Governing bodies are responsible for making sure staff have received appropriate training to look after a pupil with regard to healthcare administration, aids and adaptive technologies. School staff should be released to attend any necessary training sessions it is agreed they need.

| | |
|--|--|
| What training is required? | |
| Who needs to be trained? | |
| Has the training been completed? | |
| Headteacher/delegated person signature | |

13. TRANSPORT TO SCHOOL

| | |
|---|--|
| What arrangements have been put in place? | |
| Who will meet the pupil in school? | |

14. PERSONAL CARE

For pupils requiring intimate care as part of their IHP, please refer to the DCC intimate care policy.

| | |
|--|--|
| What arrangements have been put in place in relation to any personal care needs across the school day? | |
|--|--|

15. PLEASE USE THIS SECTION FOR ANY ADDITIONAL INFORMATION FOR THE PUPIL.

| |
|--|
| |
|--|

We suggest the following are stored together:

- IHP from health
- Medication consent form (if applicable)
- Statement of SEN / individual education plan / learning and skills plan
- One page profile
- Risk assessment
- Personal evacuation plan

16. SIGNATURES

| | Name | Signature | Date |
|------------------------------|------|-----------|------|
| Headteacher/delegated person | | | |
| Young person | | | |
| Parents/ carer | | | |
| Health professional | | | |
| School representative | | | |
| School nurse | | | |

APPENDIX 4

St Brigid's school

STAFF TRAINING RECORD – ADMINISTRATION OF MEDICATION/ TREATMENT

Please ensure that the Education Workforce Council registration is updated accordingly (if appropriate).

| | |
|---------------------------|--|
| Name (s) | |
| Type of training received | |
| Date training received | |
| Date training completed | |
| Training provided by | |
| Profession and title | |

I confirm that the above staff member(s) have received the training detailed above and is competent to carry out any necessary treatment.

I recommend that the training is updated (*please state how often*):

Trainer's signature:

Date:

I confirm that I have received the training detailed above.

Staff signature:

Date:

Suggested review date:

Good practice suggests that this form should be contained in a bound and numbered book to avoid a threat of tampering.

APPENDIX 5 – St Brigid’s school- RECORD OF MEDICATION ADMINISTERED TO A PUPIL

Good practice suggests that only one form is used per child in case a parent/carer wishes to see it.

Name: _____ Class: _____

Amount of controlled drugs received: _____ Signature: _____ Date: _____

Amount of controlled drugs handed back to parent/carer: _____ Signature: _____ Date: _____

CHECKS: a) Check consent form first; b) Medication must be in its original container with the label attached; c) If prescribed, it must have been dispensed by a pharmacist; d) Must have the expiry date and be in date; e) Must have the name of the child; f) Must have the name of the drug; g) Must have the dosage size and frequency; h) The medication has been stored according to the storage instructions; i) How much medication is left; j) Check the maximum dosage; k) Check the amount and time of any prior dosage administered. If there is a problem, contact headteacher/delegated person and then parent/carer.

| Date | Time | Name of medication | All checks above undertaken | Dose Given | Controlled drugs only: amount remaining | Any reactions | Medication refused/not administered | Reason | Parent/carer informed & how | Staff 1 signature | Staff 2 signature |

Appendix 8: Unacceptable Practice

[Supporting Learners with Healthcare Needs. Guidance. Welsh Government 215/2017. Page 27](#)

THIS MUST BE FOLLOWED

It is not acceptable practice to:

- prevent learners from attending an education setting due to their healthcare needs, unless their attending the setting would be likely to cause harm to the learner or others
- prevent learners from easily accessing their inhalers or other medication, and prevent them from taking their medication when and where necessary
- assume every learner with the same condition requires the same treatment
- ignore the views of the learner or their parents/carers, or ignore healthcare evidence or opinion (although these views may be queried with additional opinions sought promptly)
- send learners with healthcare needs home frequently or prevent them from staying for normal activities, including lunch, unless this is suitably specified in their IHP
- send a learner who becomes ill or needs assistance to a medical room or main office unaccompanied or with someone unable to properly monitor them
- penalise a learner for their attendance record if the absence is related to their healthcare needs. 'Authorised absences' including healthcare appointments, time to travel to hospital or appointment, and recovery time from treatment or illness should not be used to penalise a learner in any way. This includes, but is not limited to, participation in activities, trips or awards which are incentivised around attendance records
- request adjustments or additional time for a learner at a late stage. They should be applied for in good time. Consideration should also be given to adjustments or additional time needed in mock examinations or other tests
- prevent learners from drinking, eating or taking toilet or other breaks whenever needed in order to manage their healthcare needs effectively
- require parents/carers, or otherwise make them feel obliged, to attend the education setting, trip or other off-site activity to administer medication or provide healthcare support to the learner, including for toileting issues
- expect or cause a parent/carer to give up work or other commitments because the education setting is failing to support a learner's healthcare needs
- ask a learner to leave the classroom or activity if they need to administer non-personal* this means medication or consume food** in line with their health needs
- prevent or create unnecessary barriers to a learner's participation in any aspect of their education, including trips, e.g. by requiring a parent/carer to accompany the learner.

* For the purpose of clarification, non-personal relates to non-intimate medication.

** In line with school health and safety policies.

Appendix 9:

St Brigid's school

Authorisation for school to administer covert medication

Please take this form to your GP to complete and return to school

Appendix 2 must also be completed and attached to this form

| | |
|---------------|---------|
| Full Name | Address |
| Date of Birth | |

| | |
|--|---------------|
| Medication (as labelled on container) | |
| This medication is necessary to treat: | |
| Method(s) of administration tried in the past | |
| These methods were rejected because | |
| Covert method of administration to be used: | |
| I have assessed the young person and confirm he/she lacks the capacity to consent and continues to need the above treatment. I have undertaken a best interest analysis and confirm it is in the best interest of the child to have medication administered in the method described above. | |
| GP / Doctor Name | Surgery stamp |
| Signed | |
| Date | |

| | | | |
|---------------------|--|------|--|
| Signed parent/carer | | Date | |
| Signed Headteacher | | Date | |

This arrangement will continue until either the end of the course of medication or until instructed by parents/carers. A separate form must be completed for each medication.
